

## Political Action Committee (PAC)

What is a Political Action Committee (PAC)?

A Political Action Committee (PAC) is a popular term for a committee organized for the purpose of raising financial support to elect and defeat political candidates, promote various political and business interests, and other ideological causes. These could be national, state, or even local causes and candidates. LAMFT's PAC falls under the last two categories. We have business interests (e.g., employment of MFTs) and an ideology that we want to promote in the Legislature.
